## PROFILE

Rajdeep Das is a 20-year-old B.Tech student specializing in Information Technology at Netaji Subhash Engineering College. He is a skilled and certified professional in various domains, including web development, mobile app development, AI, machine learning, and investment management. Rajdeep is proficient in programming languages and tools like Python, JavaScript, C++, Flutter, Power BI, Git, and CSS. He has also earned Google Certifications from the Google Developers Group.

Apart from academics, Rajdeep has entrepreneurial ambitions, starting a company focused on software and hardware in Bengal. Additionally, he is exploring creative endeavors such as launching a YouTube channel dedicated to cinema and AI-generated movies. Rajdeep has shown interest in the Indian stock market, particularly in penny stocks within the finance sector. With a charming personality and a knack for design, he is adept at creating visually appealing presentations and social media posts.
